

Fine Art Photo Prints from The Sportsman's Cabinet

The Sportsman's Cabinet is dedicated to providing the highest quality photo prints with the greatest longevity available. Our Fine Art Photo Prints are produced in our studio where they are individually inspected and hand-signed by photographer, Chris Mathan. We use a high-quality professional printer, 7-color archival pigment inks and 100% cotton rag, buffered and acid free Velvet Fine Art paper with a permanence rating of over 60 years when framed under UV-protected glass. This heavy-weight matte paper produces exceptional color reproduction and offers a unique museum-quality feel. Images measure approximately 16 by 11 inches and are printed on a 19 by 13 inch sheet. Additional custom sizes are available upon request. Please call The Sportsman's Cabinet at 207-892-4201 or email us for information on custom print sizes and prices as well as additional photos available as fine art prints.

There are several online frame shops that offer custom frames and acid-free mats including Frames by Mail (www.framesbymail.com) and Picture Frames (www.pictureframes.com). Though these are economical options for framing your photo prints, we highly recommend a visit to your local frame shop where an expert framer can help you select the right frame style and color and acid-free mat to compliment your print. We hope you enjoy your print for many years to come!

Prices are subject to change without prior notice.
